# print_negative_image_QUE1

October 19, 2023

```python
[4]: from PIL import Image,ImageOps
     def print_image(image_path):
         img=Image.open(image_path)
         display(img)

         negative_image=ImageOps.invert(img)
         display(negative_image)

         gray_scale=ImageOps.grayscale(img)
         display(gray_scale)

         gray_scale_negative=ImageOps.invert(gray_scale)
         display(gray_scale_negative)
     image_path="purple.jpeg"
     print_image(image_path)
```
